Result Text

IMPRESSION:

Encounter Impression: Title: Unscheduled Remote

- * Reason: Unknown
- * Alerts or Events: 26
- * Battery: OK, 8.08 yrs
- * Sensing, impedance and thresholds reviewed and are stable.
- * Programmed parameters reviewed
- * Presenting rhythm reviewed and reports AS-VS at 74 bpm.
- * Heart Rate Histograms reviewed
- * No significant changes noted

Title: Tachycardia: SVT

- * Stored EGMs are consistent with or suggestive of Supraventricular Tachycardia vs. ST at 136-154 bpm.
- * AT burden: 0%
- * Total number of events: 25

Title: Non-sustained Ventricular Tachycardia

- * Stored EGMs are consistent with or suggestive of Non-sustained VT
- * Total episodes: 1
- 9 beat run of NSVT at 217 bpm.

Plan: This patient underwent device interrogation. I agree that the device interrogation was medically indicated to provide appropriate care and continue routine device interrogations as indicated.

Encounter Summary: This report includes 1 transmission that was received on 2025-05-14. Battery, lead impedance, sensing amplitude and pacing threshold data was reviewed.
